## Indian Journal of Microbiology Research

Volume - 4, Issue - 1, Year - 2017 ([www.ijmronline.org](http://www.ijmronline.org))

Indian Journal of Microbiology Research (IJMR) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the aim of faster and more...

### Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

### Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijmronline.org/info/author> and be submitted by **2024-12-10**.

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header is dark red with the text 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@iesrf.in, editor@iesrf.in' and 'Support: +91-11-639414, 639415 | 9850429446 | 88'. A navigation bar includes links for 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area has a light blue background and features the title 'Manuscript Peer-Review Process' followed by a paragraph describing the service as a 24/7 web-based portal. To the right is an illustration of a person at a desk with a laptop, surrounded by icons representing various services. Below the illustration is a section titled 'Why MPRP?' with a partially visible sentence: 'If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'.

**CONTENTS****Review Article:****Management of Tuberculous meningitis – A review 1-6***Lakshmi K., Santhanam R., Chitrarekha S.***Current concepts of diagnosis for mycobacterial infections in female genital tract 7-13***Pooja S. Gangania, Dakshina Bisht, Varsha A. Singh***Original Article:****Incidence of multiple drug resistant Bacillus cereus in some popular snacks and sweets sold in Kolkata city, India 14-19***Jyotismita Khasnabis, Paulomi Adhikari, Deblina Chowdhury, Chandan Rai, Arindam Roy***Clinico-bacteriological study of pyoderma with special reference to methicillin resistant Staphylococcus aureus 20-25***Shilpashree U.G, Dhanalakshmi T.A, Venkatesha D***Detection of oxacillinase and metallo-beta-lactamase in carbapenem resistant isolates of Acinetobacter spp., from various clinical samples by phenotypic and genotypic methods in a tertiary care hospital 26-30***Gomathi Maniyan, Dillirani Vedachalam, Nithya Chinnusamy***Bacteriological profile and antimicrobial susceptibility pattern of clinical samples at a tertiary care centre 31-35***Monika Rajani, Malay Banerjee***A study on bacterial infections and their antibiotic susceptibility pattern in decompensated liver disease patients in a tertiary care Hospital 36-39***Rajeswari Jayakumar***Incidence of Methicillin Resistant Staphylococcus aureus and its antibiotic susceptibility pattern in a tertiary care hospital 40-43***Sanjay Mehta***Tube adherence test as a screening tool for detection of biofilm formation among Staphylococcus 44-47***Sathish J.V., Ram Mohan Reddy K., Sujith Pavan***Study of biofilm production and its correlation with antifungal resistance among Candida species isolated from suspected cases of Tuberculosis 48-51***Anusuya Devi D., Sharadadevi Mannur Y.***Patterns of antimicrobial resistance among Multi-Drug resistant Escherichia coli in a tertiary care centre in South Karnataka 52-58***Soumya Kaup, Sunitha B. U., Jaya Sankarankutty***Microbiological diagnosis of corneal ulcers in a tertiary care center in Mangalore – A prospective study 59-63**

*Sukumar TK., Rekha Bolor, Maya Nataranjan, Neethu Kishor*

**Detection of co-existence of  $\beta$ -lactamases in Gram negative bacteria using disc potentiation tests 64-67**

*Vijaya Shivanna, Achut Rao*

**Bacteriological profile of diabetic foot infection with special reference to ESBL and MRSA in a coastal tertiary care teaching hospital 68-73**

*Y. Kavitha, S. Mohan, S. Khaja Moinuddin*

**Characterization of Methicillin Resistant Staphylococcus aureus based on its virulence factors and antimicrobial susceptibility profile 74-78**

*Alice Peace Selvabai, A. S. Shameem Banu, M. Jeya, Priyadarshini Shanmugam*

**Recent trend of bacterial aetiology of respiratory tract infections with special reference to Escherichia Coli 79-82**

*Kalpana S., Divya P.*

**Mupirocin and vancomycin susceptibility in MRSA colonising anterior nares of patients scheduled for cardiac surgery 83-86**

*Asha Pai KB, Manjunath R Kamath, Rekha Rai, Gopalakrishnan M*

**Study of fungal infections in diabetic foot Ulcer 87-89**

*Varsha T. Kalshetti, Rahul Wadile, S.T. Bothikar, Vijay Ambade, V.M. Bhate*

**Phenotypic prevalence of Extended Spectrum Beta-Lactamase (ESBL) producing Enterobacteriaceae and antibiotic coresistance in a tertiary care hospital 90-95**

*Garima, Deepti Chaurasia*

**Gram positive organisms isolated from neonatal septicaemia 96-98**

*Nawaz Umar, S. Mohammed Shahid, Bilal Ahmad Mir*

**Evaluation of 2,3,5-triphenyl tetrazolium chloride (TTC) assay for drug susceptibility testing of M. tuberculosis 99-103**

*Mangala Ghatole, Virendra Kashetty, Apeksha Ghule, Avinash Wuike*

**Antibiotic resistance pattern of streptococcus pyogenes isolated from clinical samples with special reference to quinolone resistance 104-109**

*Thipperudraswamy. T, Halesh. L.H, Sajjanar.S. Vijetha, Premalatha D.E*

**Evaluation of urichrom II for isolation of uropathogens in a tertiary care hospital 110-113**

*Meenakshi Aggarwal, Sonal Saxena*

**Xpert MTB/RIF – A new gold standard for extrapulmonary Tuberculosis? 114-117**

*Ashish Bahal, H.S. Sidhu, Anurag Khera*

**A microbiological study of otomycosis 118-125**

*Kulal B., Bhat K.S., Meundi M., Kotigadde S.*

### Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24\*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of **Innovative Publication Pvt. Ltd.** which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

### Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your
