

IJMR

Indian Journal of Microbiology Research

Volume - 5, Issue - 1, Year - 2018 (www.ijmronline.org)

Indian Journal of Microbiology Research (IJMR) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the aim of faster and more...

Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijmronline.org/info/author> and be submitted by **2024-12-10**.

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@iesrf.in, editor@iesrf.in' and 'Support: +91-11-639414, 639415 | 9850426446 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and contains the following text: 'Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels. MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals. Why MPRP? If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'. An illustration shows a person at a desk with a laptop, surrounded by icons representing various stages of the peer-review process. The IESRF logo is visible in the bottom right corner.

CONTENTS**Original Article:****Multivariate analysis of risk factors for ESBL and AmpC producing Escherichia coli and Klebsiella pneumoniae at a Tertiary Care Hospital in Karnataka: A case control study 1-6***Aaftab G.P, Asha B Patil, Shobha Medegar***Mutagenesis and screening of Penicillium oxalicum (Dal 5) for enhancing cellulase production 7-13***Ankita Singh, B. S. Chadha***Prevalence of 'unused' antibiotics at homes in a central Indian district 14-19***Jaya Lalwani, Riddhi Hathiwal, Pavan Pandey***Evaluation of rapid screening methods in the diagnosis of urinary tract infection 20-23***Prakash N., Arundathi H. A., Halesh L. H., Siddesh K. C.***Anti-biogram pattern of uro-pathogens isolated from patients in a Tertiary Care Hospital in Karnataka, India 24-30***Charu Kaushik, Namratha Kurunji Gangadhar, Subrahmanya Bhat K., Subbannayya Kotigadde***Seroprevalence of transfusion-transmissible infectious agents (HIV, HBV, HCV, plasmodium species and treponema pallidum infections) among blood donors at a Tertiary Care Teaching Hospital in Chennai: Changing trends over a period of five years 31-37***D. Umesh, Aparna V., S. Padma***Microbiological profile, comorbidity, incidence and rate analysis of catheter associated urinary tract infections in adult intensive care 38-43***Arunagiri Ramesh, Anand B Janagond, Sundaramurthy Raja, Sorakka Pandurangan Gobinathan, Jhansi Charl***Comparison of staining techniques " Ziehl Neelsen stain, Gabbet's Stain, Fluorochrome stain for detection of mycobacterium tuberculosis in sputum 44-46***Rupesh Manta, Anila Prabil, Prathiba J Dalal***Emerging trends in the antimicrobial resistance among uropathogens 47-51***T. S. Shailaja, A. Mohan Kumar, Rajan J. Payyappilly***Prevalence and phenotypic characterization of ESBL producing E.coli and Klebsiella among the fecal isolates of normal population 52-56***Sunil Indernath, R. Indra Priyadharsini, M. Manikkanan, S. Vinod Babu***A study on knowledge, attitude and practice of biomedical waste management among health care workers in a Tertiary Care Hospital in Puducherry 57-60***Monika Sekar, Swapna M., Joshy M Easow***Study of antimicrobial resistance pattern in blood isolates from critical care unit at a Tertiary Care hospital, Udaipur, Rajasthan 61-65***Ritu Bhatnagar, Pragnesh Patel*

A study on Acanthamoeba keratitis in a tertiary eye care centre South Kerala, India 66-70

Anna Cherian, Jyothi R.

Gram positive uropathogens and their antibiogram: Data analysis at a tertiary care hospital in Karnataka 71-75

Trupti B. Naik, Lavanya J., Amruthkishan Upadhya, Vijaykumar Mane

Seroprevalence of Hepatitis- A virus in North Karnataka and its changes over a 5 year period 76-79

Mahesh Kumar Shankar, Sharon V. A.

Introducing e-learning in microbiology: A pilot study 80-83

Manmeet Kaur Gill, Sahiba Kukreja

Prevalence of asymptomatic urinary tract infection due to escherichia coli among pregnant women attending ANC clinic at BRIMS teaching hospital 84-86

Sudheendra Kulkarni, B. V. Peerapur

Blood stream infections-prevalence in a tertiary care institute, Central India 87-91

Prashant Meshram, Dilip Gedam, Nitin Ambhore, Rajesh Karyakarte

Comparison of IgM enzyme linked immuno sorbent assay with Weil-felix agglutination test for diagnosis of Scrub typhus in South India 92-95

Meerah Srinivasagam, Vijayalakshmi Arumugam, Rajeswari Jayakumar

A study on carbapenemase producing Acinetobacter sp., and identification of OXA-51 gene in isolates from patients attending a tertiary care hospital 96-99

Pradha Velu, Ramya Rengaraj

Microbiological profile and antibiotic sensitivity pattern in sputum cultures-A retrospective study 100-105

Sodani Sadhna, Hawaldar Ranjana

Prevalence of virulence factors and antifungal susceptibility testing of Candida species isolated from clinical specimens 106-109

Selvaraj Stephen, Pramodhini S., Shanmugam J., Bhuvaneshwar D.

Comparison of screening tests of asymptomatic bacteriuria in pregnancy in a Tertiary Care Hospital, Solapur 110-114

Prakash H. Waghmare, Shalaka S. Rudrakshi, Kishor V. Ingole, Rashmi S.

Bawane, Sadiya V. Shaikh

Antibiotic profile of Pseudomonas aeruginosa strains isolated in a tertiary care centre 115-118

Sindhu Cugati, Sharanya K, Chitralkha Saikumar

Clinicomicrobiological profile of burn wound infections and antibiogram of the isolates in a Tertiary Care Hospital, Karnataka 119-125

Sumaira Qayoom, Mariraj Jeer, Muzaffar Amin, Talat Masoodi, Syed

Khurshid

Musculoskeletal tuberculosis - A diagnostic dilemma: Clinico-bacteriological study among patients attending tertiary health care centre in North Eastern India 126-131

Vikramjeet Singh, Anil Chandra Phukan, Bhaskar Borgohain

Detection of metallo-beta-lactamase producing imipenem resistant acinetobacter species in intensive care unit patient in a Tertiary Care Centre 132-137

Vinoba S., Rashmi K. S.

Resazurin assay for rapid drug susceptibility testing of *Mycobacterium tuberculosis* 138-142

Mangala Ghatole, Virendra Kashetty, Apeksh Ghule

Short Communication:

Role of GeneXpert MTB/Rif in detection of tuberculosis from clinical samples: A report from a tertiary care hospital in Mumbai 143-146

Sunayana M. Jangla, Susan Cherian, Raji Naidu
