

IJMR

Indian Journal of Microbiology Research

Volume - 7, Issue - 2, Year - 2020 (www.ijmronline.org)

Indian Journal of Microbiology Research (IJMR) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the aim of faster and more...

Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijmronline.org/info/author> and be submitted by **2024-12-10**.

The screenshot shows the homepage of the Manuscript Peer-Review Process (MPRP) website. The header includes the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@iesrf.in, editor@iesrf.in, editor@iesrf.in' and 'Support: +91-11-8336414, 8336415 | 8336416 | 8336417'. The navigation menu contains: 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area features a section titled 'Manuscript Peer-Review Process' with a detailed description of the service, an illustration of a person working at a computer, and a 'Why MPRP?' section.

Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd. which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your

CONTENTS**Review Article:****Biodegradation of petroleum hydrocarbon polluted soil 104-112**

Ehenenden Iyobosa, Meng Xianagang, Ning Hai Jun, Shu Fang, Wang Zhennan

Original Article:**A comprehensive review of current microbiological detection methods of SARS CoV-2 113-124**

N Shanmuga Vadivoo, B Usha, K Sudha

Phenotypic methods for detection of Amp C b lactamases in Gram negative clinical isolates of a tertiary care hospital 125-129

Dhanashree P Inamdar, Anuradha B

Prevalence and in vitro antibiogram of non-fermenting gram negative bacilli in a tertiary care hospital of Karnataka 130-136

Sonu Panwar, Sunil Kumar D Chavan

Comparison of antimicrobial susceptibility pattern between biofilm and non-biofilm forming uropathogens isolated from community acquired urinary tract infections 137-141

Sugil E, C P Ramani

Determination of vancomycin, linezolid and daptomycin resistance among Eenterococcus isolates from a tertiary care hospital 142-145

Jaswinder Singh Gill

Clinico-microbiological study of community acquired MRSA from skin and soft tissue infections and its antibiogram in a tertiary care hospital in Karnataka 146-153

Thilagavathy, Sunil Kumar D Chavan

A prospective study to evaluate methods of MRSA detection in patients with soft tissue and bone infection in a tertiary care centre 154-160

Serra Saji Moses, Thomas S Kuruvilla, Thressia Thomas

A study on the distribution and hydrolytic enzyme potential of yeasts in the mangrove sediments of Northern Kerala 161-167

Vidya Pothayi, Sebastian Chempakassery Devasia1

Evaluation of the four phenotypic methods for the speciation of Candida isolates in comparison with molecular method 168-174

Reshma Bhaskaran, Chithra Valsan, Sathivathy K A

Five years trend of bacteriological profile and antibiogram of urinary tract infections at a rural medical college hospital in North Kerala, India: 2012-16 175-181

Ramakrishna Pai J, Sumita Rajeevan, Syed Mustaq Ahmed, Ann Taisy George, Preethy Edavaloth, Rajeevan V

Identification and antibiogram of Amp C b - lactamases present in gram negative bacilli - Has the trend changed? 182-191

Sunil Kumar D Chavan, Sonu Panwar

Detection of anti DENV IgM and IgG antibodies by evaluating the rapid immunochromatographic technique in hospital at Himmatnagar, Gujarat 192-194

Nimisha Shethwala, Amar Shah

Clinical profile of leptospirosis and role of various diagnostic methods, a hospital based prospective observational study 195-198

K Prakash

Neonatal septicaemia due to enterococci species and their antibiotic susceptibility pattern in a tertiary care hospital, Hassan 199-202

Elizabeth Antony, Gayathree L

Evaluation of rapid diagnostic test compared with ELISA for detection of hepatitis B surface antigen 203-206

Rakesh Kumar Shrivastava, Deepti Chaurasia

Comparative bacteriological profile with antibiotic resistance pattern among diabetic and non-diabetic patients 207-211

R Sree Naga Sowndary, Kavitha E

Molecular characterization of metallo-beta-lactamase producers among carbapenem resistant *Pseudomonas aeruginosa* isolated from cases of hospital acquired infections in a tertiary care hospital, Bengaluru 212-217

Ashwini Sondakar, Sneha K Chunchanur, Ambica Rangaiah, Sathyanarayan Muthur Shankar
