## Indian Journal of Microbiology Research

Volume - 3, Issue - 4, Year - 2016 ([www.ijmronline.org](http://www.ijmronline.org))

Indian Journal of Microbiology Research (IJMR) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the aim of faster and more...

### Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

### Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijmronline.org/info/author> and be submitted by 2025-02-06.

### Advertisement

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in', 'editorial@iesrf.in', and 'Support: +91-11-639414, 639415 | 9826429446 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and describes the web-based portal's 24/7 availability and editorial services. It includes an illustration of a person at a computer. Below the text, it states 'MPRP manages all the authors, reviewers, editors' details and its integration with social and professional networks. It is an in-house product of IP Innovative Publication Pvt. Ltd. The advertisement concludes with the heading 'Why MPRP?' and a partial sentence: 'If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'.

**CONTENTS****Original Article:****Determination of incidence of different Candida spp. in clinical specimens and characterisation of Candida species isolates 342-351***Abhishek Mehta, Vidya S. Date***Incidence & Estimation of Beta - Lactamase Enzymes (ESBL Ampc, Carbapenemase Enzymes) singly and their coexistence in clinical isolates of Gram Negative bacteria by Vitek - 2 Compact System 352-358***Archana Bora, PK Khatri, Aruna Solanki, RS Parihar, AK Chandora***Coexistence of quinolone resistance and extended spectrum beta lactamase production in urinary isolates of Escherichia coli - an emerging challenge to antimicrobial prescribing pattern 359-362***Arundathi HA, Mallikarjun Koppad, Halesh LH, Siddesh KC***Comparison of conventional Ziehl Neelsen staining with LED Fluorescent staining for pulmonary tuberculosis cases 363-367***Ashish Khanna, Poonam Sharma, Sarabjit Sharma, Menka Khanna***Seropositivity to anti-thyroid peroxidase and anti-thyroglobulin autoantibodies in hypo and hyper-thyroidism: Diagnostic and epidemiological significance 368-372***Qursheed Sultana, Ayesha Anjum, Nusrath Fathima, Mohammad Siraj, Mohammad Ishaq***Antimicrobial susceptibility pattern of bacterial isolates from chronic suppurative otitis media patients in Central India 373-382***Garima, Deepti Chaurasia, VK Poorey***Seroprevalance of Hepatitis B Surface Antigen amongst general population in a Tertiary Care Hospital 383-386***Gitanjali Badave, Neelima Pantagada, P. Nageswara Rao***Characterization and antimicrobial susceptibility pattern of non-fermenting gram negative bacilli from various clinical samples in a tertiary care hospital 387-391***Gomathi Maniyan, Dillirani Vedachalam, Nithya Chinnusamy***Bacteriological profile and anti-biogram pattern of asymptomatic UTI in pregnant Women at Tertiary Care Teaching Hospital, Vadodara, Gujarat 392-397***Hetal G. Vaghela, Hitesh R. Ahir***Emergence of non-albicans Candida species in critical care patients of a tertiary care hospital 398-400***Jasvir Kaur, Poonam Sharma, Sarbjeet Sharma***In vitro study of meropenem and colistin combination against multidrug resistant clinical isolates from patients with burns 401-404***Jaswinder Singh Gill, Ketoki Kapila***Comparative evaluation of a rapid test with ELISA for the detection of Dengue Infection 405-407**

*Manmeet Kaur Gill, Amandeep Kaur, Sahiba Kukreja, Namrata Chhabra*

**Comparative evaluation of MIC by E-test and Cefoxitin disc diffusion for detection of Methicillin Resistant Staphylococcus aureus (MRSA) 408-411**

*Mansi Gupta, Navinchandra Kaore, Anshul Gupta*

**A study on the microbial profile of orthopedic implant infections and its risk factors in a tertiary care hospital 412-418**

*Angappan Perumal, Ashok Kumar C, Sheila Doris T*

**Evaluation of the Baseline Widal titre among apparently healthy individuals in Tumkuru, Karnataka, India 419-422**

*Parimala TV*

**Bacteriological profile and antibiotic resistance pattern of ear discharge in a tertiary care hospital 423-428**

*Pavneet Kaur, Arvinder Singh Sood, Sarbjeet Sharma, Aruna Aggarwal*

**Role of mobile phones as a possible source of nosocomial infections: A study in a tertiary care hospital 429-431**

*Prasanna Chhagan Nakate, Mangala Prakash Ghatole, Virendra Ashok Kashetty*

**Molecular characterization of biofilm producing Staphylococci isolated from Central Venous Catheters in a tertiary care hospital 432-435**

*Vasanthi Rompicherla, Priyadarshini Shanmugam, Shameem Banu Abdul Sattar*

**Etiology of blood culture from septicemia cases and their antibiotic susceptibility pattern at a tertiary care hospital 436-440**

*Lavanya Jagdish, Trupthi B. Naik, Ravi Kumar Gupta, Manoj Jais*

**Comparative study of Virulence factors among MBL and Non MBL producing Urinary isolates of Pseudomonas aeruginosa in a tertiary care hospital 441-445**

*S. Pramodhini, S. Umadevi, KS Seetha*

**Biofilm production by staphylococcus aureus and staphylococcus epidermidis: an evaluation of three different screening methods 446-449**

*Sathish JV, Ashwini M, Sujith Pavan*

**Is fungi replacing bacteria as etiological agents of community acquired pneumonia-current strategy of changing scenario? 450-453**

*Sowmya A. Venkateswaran, Jayalakshmi Gopal, Agatha David*

**Catheter associated urinary tract infection(CAUTI)- Incidence and microbiological profile in a tertiary care hospital in Andhra Pradesh 454-457**

*Sreedevi Hanumantha, Hema Prakash Kumari Pilli*

**Usefulness of histogram study in diagnosis of malaria: our experience at tertiary care center 458-463**

*Varsha Somabhai Khant, Hansa Goswami*

**Community acquired urinary tract infections (CAUTI) with special reference to antibiogram of Escherichia coli and Klebsiella species 464-467**

*Yedla Kavita, Mohan Sundaram, Anandi V*

**Detection of high and low level mupirocin resistance among clinical isolates of Staphylococcus**

**aureus 468-471**

*Arularasu P, Alice Peace R, Priyadarshini Shanmugam*

**Study of the antibiotic sensitivity pattern of *Pseudomonas aeruginosa* and its mechanism of resistance 472-478**

*Sadhna Sodani, Ranjana Hawaldar*

**Clinical profile of HIV/AIDS in geriatric patients seeking ART - A Longitudinal study 479-482**

*Amit R Ugargol, Shilpa K, Katti S. M., Mallapur MD*

**Isolation and purification of potassium solubilizing bacteria from different regions of India and its effect on crop's yield 483-488**

*Anukriti Verma, Yamini Patidar, Aditi Vaishampayan*

**An epidemiological study of *Tinea capitis* in patients attending a tertiary care hospital 489-492**

*Vikas Chandra Yadav, Mohammad Zoyev Khan, Sujan Narayan Agrawal*

## Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24\*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of Innovative Publication Pvt. Ltd. which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

### Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your
